(54) Title: DIETARY REGIMENS AND METHODS FOR TREATMENT OF COLORECTAL CANCER

FIG. 1

NEAAR Medical food given on an intermittent schedule during this period

E.g. NEAAR is given on 6 consecutive days per week with one day per week on habitual diet during SCRT phase, and then NEAAR is given on 2-5 consecutive days per week with 5-2 days per week on habitual diet during chemotherapy phase

(57) Abstract: Disclosed herein are dietary regimens and methods of treatment to starve colorectal cancer cells of nutrients, such as amino acids. The formulations of the present invention can be substantially devoid of one or more amino acids. The formulations of the present invention can be administered in a combination with a radiotherapy and chemotherapy regimen. A method disclosed herein can sensitize a cell to serine, glycine, and proline depletion.
