ABSTRACT

A CUFF LINK

A cuff link (1) for releasably coupling a first and second section (5,5') of a sleeve together, said cuff link (1) including:

a central frame (2); and

a first and second retaining member (3,3') coupled to first and second ends (2a,2b) of the central frame (2) respectively;

wherein the first retaining member (3) is adjustable between at least a collapsed configuration, and, at least an expanded configuration.
