(54) Title: ROTARY ACTIVATED UNIVERSAL CONNECTOR CAP

FIG. 9A

(57) Abstract: Universal disinfecting connector, connector or cap can interface with male, female, female stopcock, and female hemodialysis threaded fittings, therefore encompassing an entire spectrum of disinfecting connectors. Disinfecting connector or cap includes a configuration of structural elements that provide a universal rotary cap incorporating rotary-activated interfaces and design features allowing the cap to be configured to selectively present any one of a plurality of connection types, or interfaces, for engaging, coupling, or capping, a corresponding type of a male or a female connector or luer.
