FIG. 1

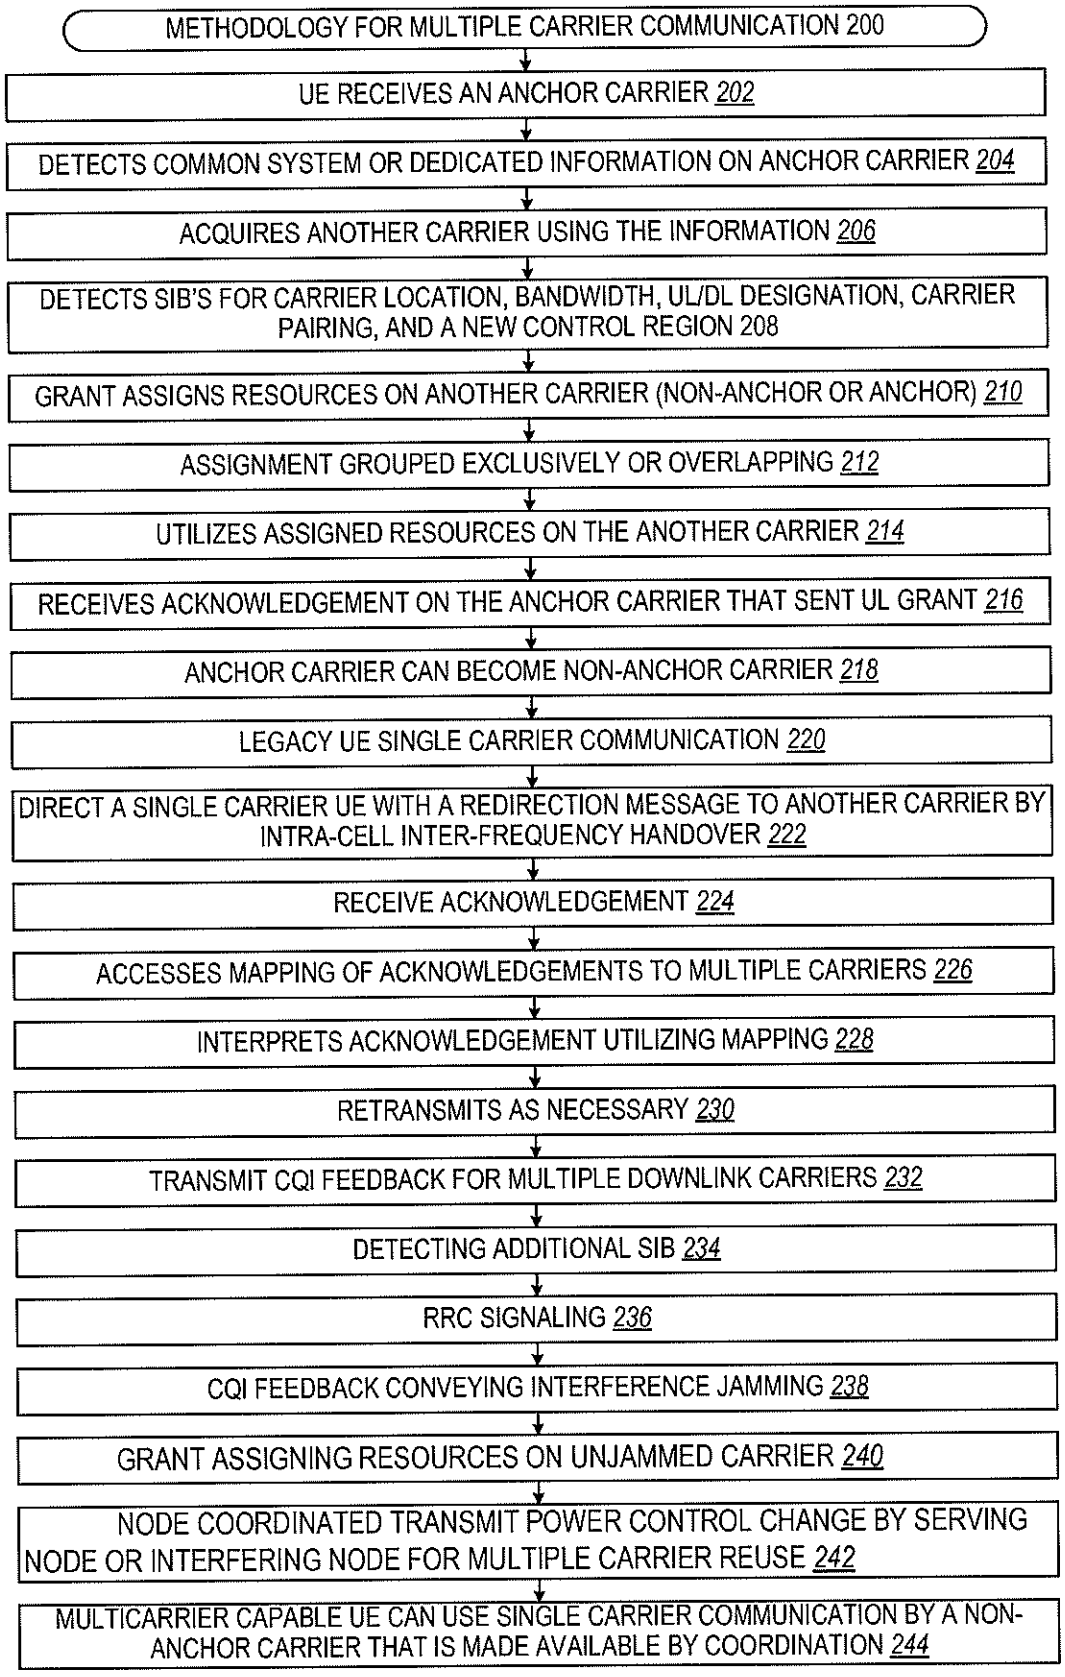

METHODOLOGY FOR MULTIPLE CARRIER COMMUNICATION 200
UE RECEIVES AN ANCHOR CARRIER 202
DETECTS COMMON SYSTEM OR DEDICATED INFORMATION ON ANCHOR CARRIER 204
ACQUIRES ANOTHER CARRIER USING THE INFORMATION 206
DETECTS SIB'S FOR CARRIER LOCATION, BANDWIDTH, UL/DL DESIGNATION, CARRIER PAIRING, AND A NEW CONTROL REGION 208
GRANT ASSIGNS RESOURCES ON ANOTHER CARRIER (NON-ANCHOR OR ANCHOR) 210
ASSIGNMENT GROUPED EXCLUSIVELY OR OVERLAPPING 212
UTILIZES ASSIGNED RESOURCES ON THE ANOTHER CARRIER 214
RECEIVES ACKNOWLEDGEMENT ON THE ANCHOR CARRIER THAT SENT UL GRANT 216
ANCHOR CARRIER CAN BECOME NON-ANCHOR CARRIER 218
LEGACY UE SINGLE CARRIER COMMUNICATION 220
DIRECT A SINGLE CARRIER UE WITH A REDIRECTION MESSAGE TO ANOTHER CARRIER BY INTRA-CELL INTER-FREQUENCY HANDOVER 222
RECEIVE ACKNOWLEDGEMENT 224
ACCESSES MAPPING OF ACKNOWLEDGEMENTS TO MULTIPLE CARRIERS 226
INTERPRETS ACKNOWLEDGEMENT UTILIZING MAPPING 228
RETRANSMITS AS NECESSARY 230
TRANSMIT CQI FEEDBACK FOR MULTIPLE DOWNLINK CARRIERS 232
DETECTING ADDITIONAL SIB 234
RRC SIGNALING 236
CQI FEEDBACK CONVEYING INTERFERENCE JAMMING 238
GRANT ASSIGNING RESOURCES ON UNJAMMED CARRIER 240
NODE COORDINATED TRANSMIT POWER CONTROL CHANGE BY SERVING NODE OR INTERFERING NODE FOR MULTIPLE CARRIER REUSE 242
MULTICARRIER CAPABLE UE CAN USE SINGLE CARRIER COMMUNICATION BY A NON-ANCHOR CARRIER THAT IS MADE AVAILABLE BY COORDINATION 244

FIG. 7

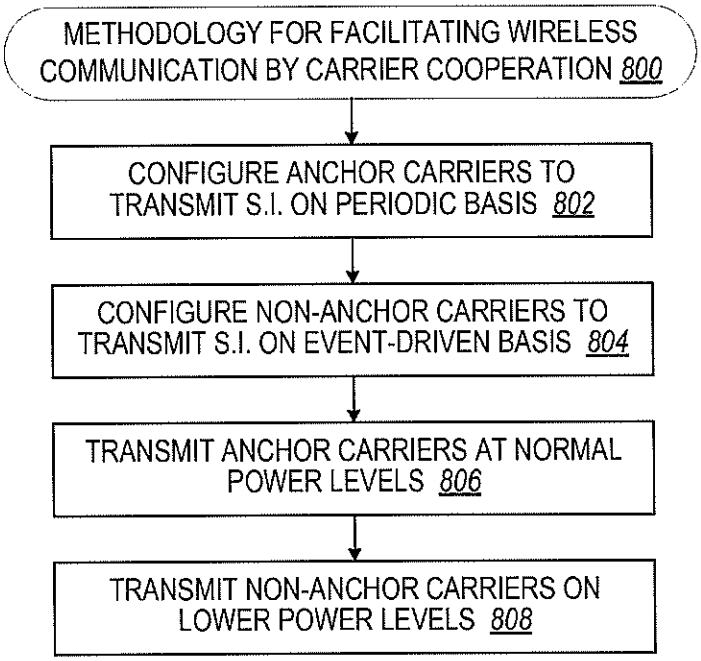

METHODOLOGY FOR FACILITATING WIRELESS COMMUNICATION BY CARRIER COOPERATION 800
CONFIGURE ANCHOR CARRIERS TO TRANSMIT S.I. ON PERIODIC BASIS 802
CONFIGURE NON-ANCHOR CARRIERS TO TRANSMIT S.I. ON EVENT-DRIVEN BASIS 804
TRANSMIT ANCHOR CARRIERS AT NORMAL POWER LEVELS 806
TRANSMIT NON-ANCHOR CARRIERS ON LOWER POWER LEVELS 808

FIG. 8

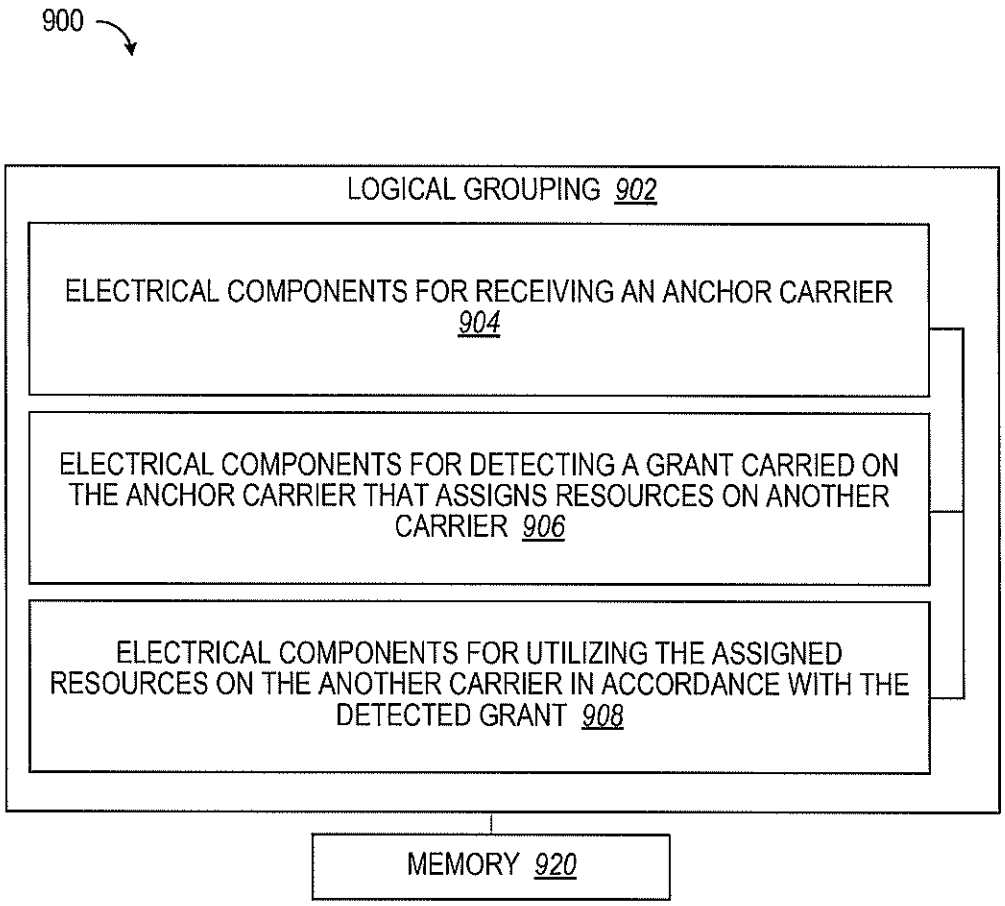

900
LOGICAL GROUPING 902
ELECTRICAL COMPONENTS FOR RECEIVING AN ANCHOR CARRIER 904
ELECTRICAL COMPONENTS FOR DETECTING A GRANT CARRIED ON THE ANCHOR CARRIER THAT ASSIGNS RESOURCES ON ANOTHER CARRIER 906
ELECTRICAL COMPONENTS FOR UTILIZING THE ASSIGNED RESOURCES ON THE ANOTHER CARRIER IN ACCORDANCE WITH THE DETECTED GRANT 908
MEMORY 920

FIG. 9
