(57) Abstract: First and second block groups (110, 112) are arrayed and displayed around respective circles of smaller and larger diameters. A measured physical quantity is expressed by the positional relationship of blocks (114a, 116a) to be colored among blocks (114, 116) of the block groups (110, 112) and the amounts of coloring on the blocks (114a, 116a) to be colored.
