

ANISOTROPIC CONDUCTIVE FILM, CONNECTION METHOD, AND ASSEMBLY

ABSTRACT

5 An anisotropic conductive film, which contains a crystalline resin, an
amorphous resin, and conductive particles, wherein the anisotropic conductive film
is an anisotropic conductive film configured to anisotropically connect a
terminal of a first electronic part and a terminal of a second electronic part, and
wherein the crystalline resin contains a crystalline resin containing a bond
10 characterizing a resin, which is identical to a bond characterizing a resin contained
in the amorphous resin.
