(54) Title: IMPROVED MOUNTING SYSTEM FOR WATER SUPPLY FITTINGS

(57) Abstract

A mounting platform (8) having provision for the mounting of one or more water supply fittings (11); the area of the mounting platform (8) immediately adjacent the external intersection of the water supply fitting (11)/mounting platform (8) intersection protruding from the main plane of the mounting platform (8) and being profiled such that water running over the external water supply fitting (11)/mounting platform (8) protrusion intersection will tend to be evacuated from such intersection by gravity.
