The diagram shows a front view of a double-door refrigerator. At the top, there are two circular handles. Below them are two vertical doors. A horizontal dashed line passes through the middle of the doors. Five points are marked on this line: 'a' is on the left door, 'b' is on the left door, 'c' is on the right door, 'd' is on the right door, and 'e' is on the right door. Wavy lines connect these labels to their respective points: 'a' and 'b' point to the leftmost point, 'c' points to the middle point, and 'd' and 'e' point to the rightmost point.
