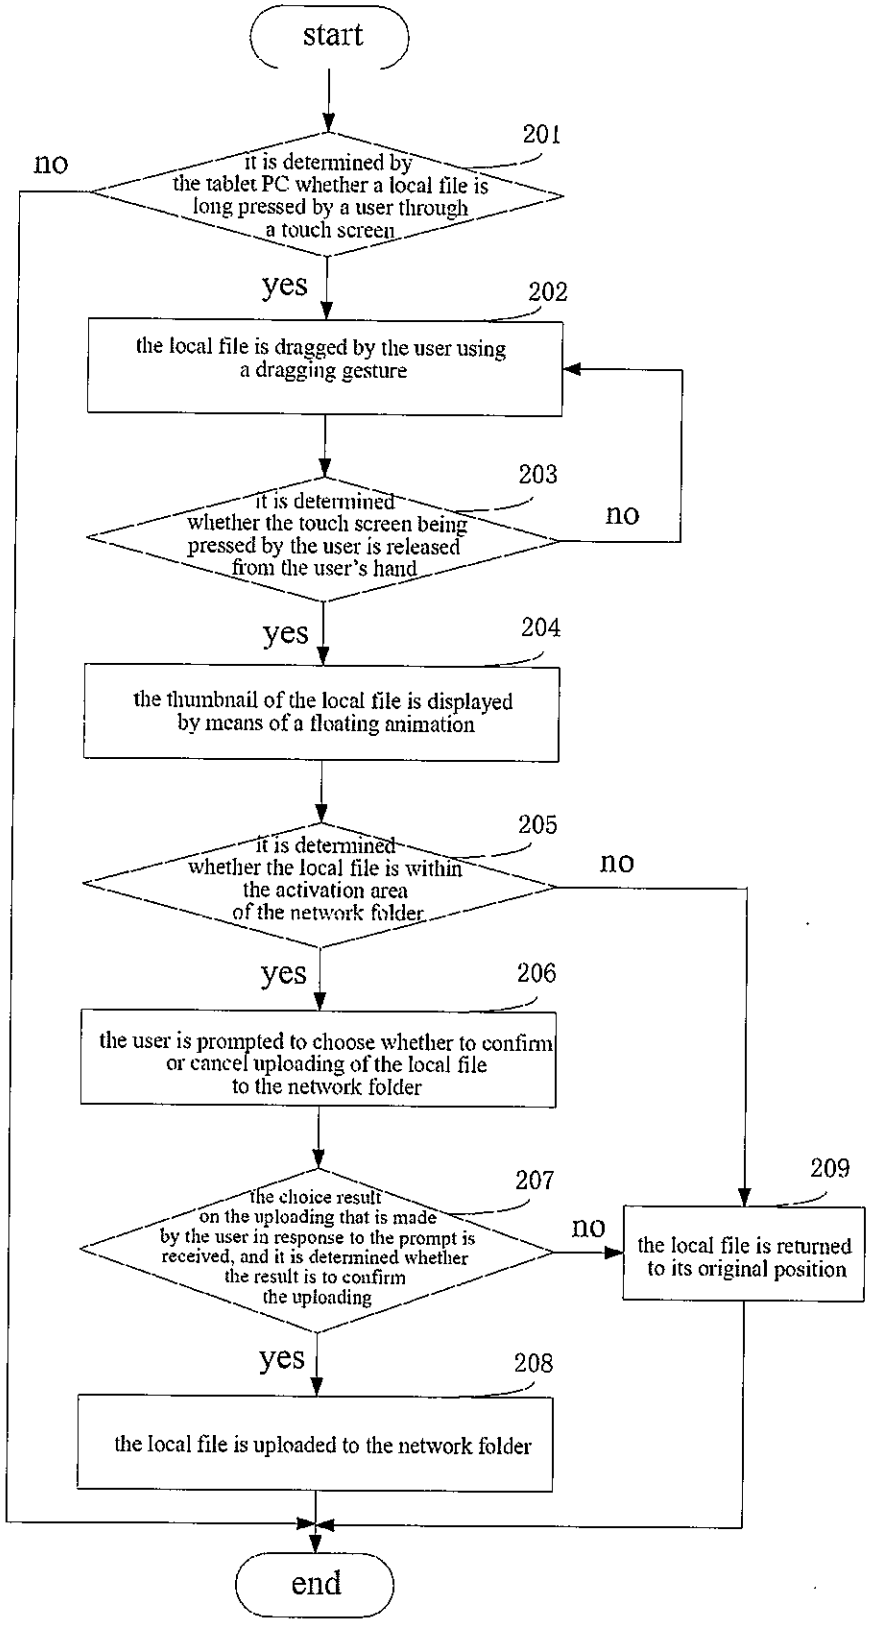
start
101
it is determined by the tablet PC whether a local file dragged by a user is within an activation area of a network folder at the end of the dragging
no
yes
102
the user is prompted to choose whether to confirm or cancel uploading of the local file to the network folder
103
if the confirmation on the uploading that is made by the user in response to the prompt is received, then the local file is uploaded to the network folder
end

FIG. 1



start
201
it is determined by the tablet PC whether a local file is long pressed by a user through a touch screen
no
yes
202
the local file is dragged by the user using a dragging gesture
203
it is determined whether the touch screen being pressed by the user is released from the user's hand
no
yes
204
the thumbnail of the local file is displayed by means of a floating animation
205
it is determined whether the local file is within the activation area of the network folder
no
yes
206
the user is prompted to choose whether to confirm or cancel uploading of the local file to the network folder
207
the choice result on the uploading that is made by the user in response to the prompt is received, and it is determined whether the result is to confirm the uploading
no
209
the local file is returned to its original position
yes
208
the local file is uploaded to the network folder
end
