Abstract

METHOD AND APPARATUS FOR RECORDING AND REPRODUCING VIDEO DATA, AND INFORMATION STORAGE MEDIUM IN WHICH VIDEO DATA IS RECORDED BY THE SAME

5 A method of recording and reproducing video data is provided. The
method of recording video data in an information storage medium includes the
steps of (a) decoding the video data, (b) encoding the decoded video data in
different way to original one, (c) generating video transform information which is
to be referred to for decoding the video data into an original state, and (d)
10 recording the generated video transform information and the re-encoded video
data in the information storage medium. Accordingly, the video data can be
properly reproduced even if it is re-encoded in different way to the original one.
