(54) Title: WALL SYSTEM

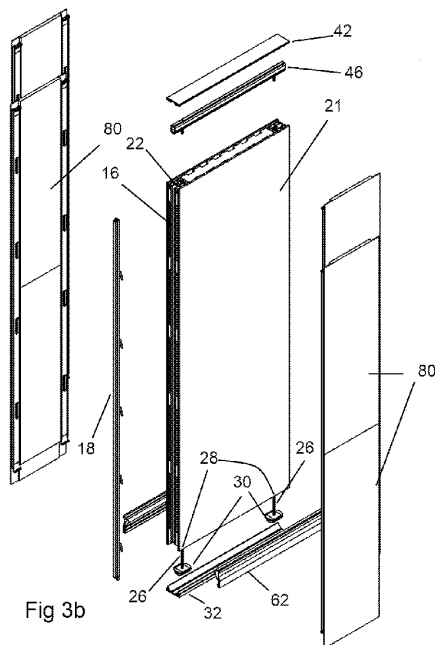

Fig 3b

(57) Abstract: A wall system (10) comprising a wall panel (12) connected to one or more adjacent wall panels. One or more legs (26) extend from a lower edge of the wall panel (12) and a lower track (32) is secured to a floor. The lower track (32) has a lower channel (34) into which feet (30) on the legs (26) are received. An inner surface of the lower channel (34) is arcuate in cross section taken transversely to a longitudinal axis thereof and a lower surface each of the feet (30) has a corresponding arcuate cross sectional shape such that the angle of the wall panel (12) can be varied relative to the lower track (32).
