Title – Reusable Message Sticker

A Reusable Message Sticker (1, Sheet 8) includes the use of an appropriate removable adhesive (2, Sheet 8), and an appropriately designed Plastic Film (3, Sheet 8) which is attached to a corner of the Sticker (on the adhesive side). Alternatively, the Plastic Film can be designed in a different shape (e.g. rectangular) and attached along any straight edge (on the adhesive side) of the Sticker (Sheet 10). A new Album is created (with reference to accompanied drawings and hand-made sample) to put or store the Stickers.
