(54) Title: FOAMABLE PHARMACEUTICAL COMPOSITIONS AND METHODS FOR TREATING A DISORDER

(57) Abstract: Novel compositions of matter comprising a foamable delivery system are provided. Novel methods for treating a disease, disorder, or condition using the novel compositions, are further provided. Novel methods for making and delivering a foamable pharmaceutical composition are also provided. While the novel compositions and foamable drug delivery system may be utilized for administration of a wide variety of drugs to epithelialtissues, to treat a wide variety of diseases, disorders, or conditions, the inventive compositions and foamable drug delivery systems are particularly useful for the dermatological administration of corticosteroids and antifungal agents.
