(54) Title: HIGH PERFORMANCE CONFORMAL COATINGS

(57) Abstract: Disclosed herein are various embodiments and examples of conformal coatings that are formed by a variety of formulations and curing methods. In one embodiment, resins that are capable of thiol-ene polymerization are used. In another embodiment, reactive acrylic liquid elastomers are used. In yet another embodiment, epoxy resins are used in combination with other chemistries to produce useful physical properties for the conformal coatings.
