A schematic diagram of a toilet seat assembly in a side view. The diagram shows a toilet bowl (5) with a lid (6) and a seat (4). A hinge mechanism (10) connects the seat to the bowl. A cable (9) runs from the hinge area down to a base unit (7) mounted on the floor. A dashed line (L) indicates the closed position of the lid. Other labels include 15, 16(20), 17, 11, F, and 13.
