

Figure 1

Figure 3: Evolution of the total number of defects as a function of the number of grafts (5 min) carried out with the polymer A

Figure 4: Evolution of the total number of defects as a function of the number of grafts (5 min) carried out with the polymer B

Figure 5: Evolution of the total number of defects observed in spaces of different width as a function of the number of grafts carried out

Figure 6: Evolution of the thickness of the grafted layers of the polymer B as a function of the number of grafts carried out ($n \times 5$ min; 240°C)
