

{Title of Invention} DISPOSABLE PULL-ON DIAPER

Abstract:

The present invention aims to provide a disposable pull-on  
5 diaper improved so that the diaper may be conveniently put on  
the wearer's body.

Each of leg side flaps (42) of a crotch panel (14) has an outer  
side region (91) and an inner side region (92). In the lowest  
region (70) of the crotch region (4), the outer side region (91)  
10 and the inner side region (92) respectively have a dimension  
of at least 10 mm in a transverse direction (X) wherein the inner  
side region (92) extends in a longitudinal direction (Y) and  
the outer side region (91) extends in the transverse direction  
(X) from the inner side region (92).
