(54) Title: WATER FLOW APPARATUS

Fig. 6

(57) Abstract: A guttering system (500) for water drainage of roofs and buildings. The guttering system (500) comprising a first elongate covered channel member (506) capable of carrying water flow in a first direction and at least a second elongate covered channel (508) positioned above or below said first elongate covered channel (506), capable of transporting water in said same direction of water flow.
