CREDIT-BASED CLAIM SETTLEMENT IMPLEMENTING METHOD AND DEVICE

Abstract

A credit-based claim settlement implementing method, comprises receiving a claim settlement request sent by a user. After the claim settlement request sent by the user is received, the method further comprises: determining credit information of the user; when the credit information satisfies a credit constraint condition, prompting the user to upload claim settlement materials; verifying the claim settlement materials uploaded by the user; and if the claim settlement materials pass the verification, performing a claim settlement operation for the user based on the claim settlement materials.
