(54) Title: TRANSPARENT SUBSTRATE WITH ANTIGLARE COATING HAVING ABRASION-RESISTANT PROPERTIES

(54) Titre : SUBSTRAT TRANSPARENT A REVETEMENT ANTIREFLETS AVEC PROPRIETES DE RESISTANCE A L'ABRASION

(57) Abstract: The invention concerns a transparent substrate, in particular made of glass (19), comprising on one side at least a functional element (20) and on the opposite side an antiglare coating (11), characterized in that the substrate comprises a scratchproof and abrasion resistant coating, said coating being formed by the antiglare coating (11) made of a stack of thin films of electric material with alternating high and low refractive indices.

(57) Abrégé : Substrat transparent, notamment verrier (10), comportant sur une face au moins un élément fonctionnel (20) et sur la face opposée un revêtement antireflets (11), caractérisé en ce que le substrat comporte un revêtement anti-rayures et résistant à l'abrasion, ledit revêtement étant constitué par le revêtement antireflets (11) fait d'un empilement de couches minces de matériau diélectrique d'indices de réfraction alternativement forts et faibles.
