(54) Title: COMPRESSIBLE STRUCTURAL PANEL

(57) Abstract: A structure panel (50) for use in building structures or in the formation, finish or decoration thereof includes an outer sheet (54) and a connector sheet (56) with a plurality of collapsible or compressible dividers (52) therebetween. The panel in a rest condition is expanded and of a desired thickness for final use but can be compressed into a relatively thin thickness or profile for shipping purposes. The panel is very lightweight but structurally strong and can be selectively bent in one transverse direction if desired. The panel can be easily cut into an predetermined size or shape.
