

ABSTRACT
SEALING WEB

The invention relates to a multi-layer sealing web (10) for a region of a structure, said sealing web comprising outer layers (14, 22, 24), which contain a base polymer and a plasticizer, and a combination carrier insert (16), which is provided between the outer layers and has a glass nonwoven (20) and a glass reinforcement that consists of a knitted fabric (18) or contains same.
