(54) Title: USE OF METAL SCAVENGERS FOR REMOVAL OF RUTHENIUM RESIDUES

(57) Abstract: The invention concerns use of metal scavengers of the formula (1), wherein the variables are as defined in the de-
scription of the invention, for removal of ruthenium residues, compounds, or complexes thereof, from the post-reaction mixtures,
from the products of reactions catalysed with ruthenium complexes, as well as from organic compounds contaminated with rutheni-
um.
