- (54) **Title:** GRAPHICAL DIAGRAM COMPARISON

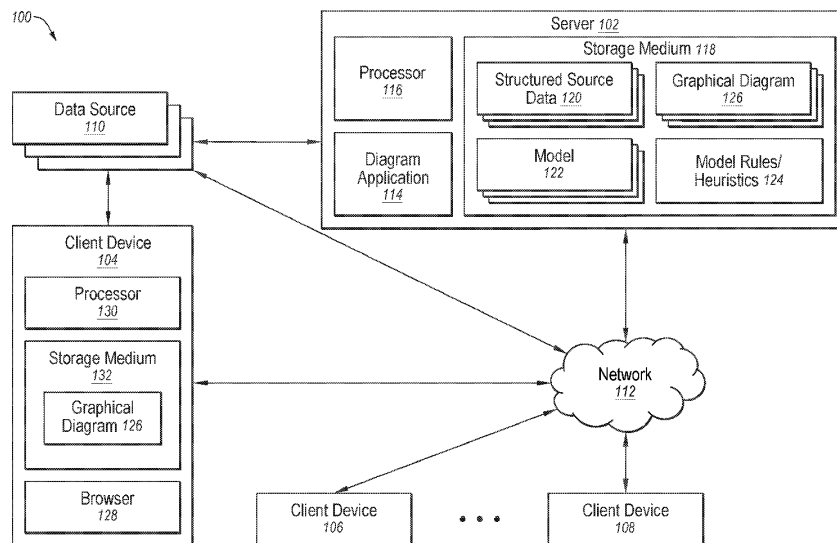

FIG. 1

(57) **Abstract:** In an example, a method to compare graphical diagrams may include comparing a first set of graphical objects of a first graphical diagram to a second set of graphical objects of a second graphical diagram. The method may include, in response to one or more identifying properties of a given graphical object of the first set matching one or more identifying properties of a given graphical object of the second set, declaring the given graphical object of the first set and the given graphical object of the second set a matched pair. The method may include marking each unmatched graphical object a deleted graphical object or an added graphical object. The method may include generating and displaying a comparison graphical diagram that visually identifies differences between the first and second graphical diagrams.
