    expr_fp_0: # no false positive => is fake news
        output clear="1" newline="1":- verdict: 1;
    expr_fp_1: # false positive detected => is not fake news
        output clear="1" newline="1":- verdict: 0;

# ask summary depending on verdict
output newline="1":- summary:
if verdict == 0:
    input newline="1":- summary: short summary and explanation why TARGET is not
fake news;
elif verdict == 1:
    input newline="1":- summary: short summary and explanation why TARGET is fake
news;

# check done
search expr="done[\s:]*1":
    stop

@dprompt
- done: 1.

TARGET: Researchers have found a new way to solve the energy crisis. They propose to develop a
fusion reactor and to install it directly on the sun. The energy will be then propagated from
Sun to Earth using cables.
