Claims

~~[Claim 1]~~

~~Noodle strings for use in production of instant noodles, containing a raw material powder, magnesium chloride, and a reducing sugar.~~

~~[Claim 2]~~

~~The noodle strings for use in production of instant noodles according to claim 1, wherein a content of the magnesium chloride is 0.05 to 1.50% by weight and a content of the reducing sugar is 0.05 to 1.50% by weight in a total amount of the noodle strings.~~

[Claim 1~~3~~]

A method for producing instant noodles, comprising a step A of producing noodle strings, and a drying step B of drying the noodle strings at 100°C or more,

wherein the step A of producing noodle strings includes a flavoring step a, and the reducing sugar is added to the noodle strings by dipping the noodle strings into a liquid seasoning containing magnesium chloride, sodium chloride and the reducing sugar, in the flavoring step a,

wherein the noodle strings contain a raw material powder containing gluten, sodium chloride, magnesium chloride, and glucose or fructose as the ~~a~~ reducing sugar, and a content of the magnesium chloride is 0.05 to 0.54~~1.50~~% by weight and a content of the reducing sugar is 0.05 to 1.50% by weight in a total amount of the noodle strings.

~~[Claim 4]~~

~~The method for producing instant noodles according to claim 3, wherein the step A of producing noodle strings includes a flavoring step a, and the reducing sugar is added to the noodle strings in the flavoring step a.~~

~~[Claim 5]~~

~~A method for producing instant noodles, comprising at least the following steps C1 to C3:~~

~~the step C1 of producing noodle dough by kneading a raw material powder, water and kansui;~~

~~the step C2 of producing noodle strings from the noodle dough; and~~

~~the step C3 of adding magnesium chloride to the noodle strings.~~

~~[Claim 6]~~

~~The method for producing instant noodles according to claim 5, wherein the raw material powder contains gluten.~~

~~[Claim 7]~~

~~The method for producing instant noodles according to claim 5 or 6, wherein the noodle strings are gelatinized before the step C3.~~

~~[Claim 8]~~

~~Instant noodles containing magnesium chloride, potassium lactate and a raw material powder,~~

~~wherein the magnesium chloride is contained in an amount of 0.05 to 1.50% by weight and the potassium lactate is contained in an amount of 0.10 to 2.50% by weight in a total amount of the instant noodles.~~

~~[Claim 9]~~

~~The instant noodles according to claim 8, further containing sodium chloride,~~

~~wherein the sodium chloride is contained in an amount of 50 to 85 parts by weight with respect to 100 parts by weight of a salty taste component, the salty taste component referring to the magnesium chloride, the potassium lactate and sodium chloride contained in the instant noodles.~~

~~[Claim 10]~~

~~The instant noodles according to claim 8 or 9, wherein the magnesium chloride is contained in an amount of 0.10 to 0.70% by weight in the total amount of the instant noodles.~~

~~[Claim 11]~~

~~The instant noodles according to any one of claims 8 to 10, wherein the potassium lactate is contained in an amount of 0.20 to 1.50% by weight in the total amount of the instant noodles.~~

~~[Claim 12]~~

~~The instant noodles according to any one of claims 9 to 11, wherein the sodium chloride is contained in an amount of 1.50 to 2.50% by weight in the total amount of the instant noodles.~~
