

SENSOR FIXTURE

ABSTRACT

5 A sensor fixture 100 includes a clamp body 1, a sensor 9 threadedly
coupled to a center portion of the clamp body 1, clamp arms 2 and 3
respectively attached to the left and right of the clamp body 1, protrusions 4
and 5 respectively provided to the clamp arms 2 and 3, and a fixing bolt 15
attached to lower end portions of the clamp arms 2 and 3. The sensor 9 can be
10 easily and firmly fixed by supporting a sensor attaching part at three points
with the sensor 9 attached to the clamp body 1, and the protrusions 4 and 5 of
the left and right clamp arms 2 and 3.
