ABSTRACT OF THE DISCLOSURE

METHOD AND SYSTEM FOR PREPARING AND REGISTERING HOMEPAGES, INTERACTIVE INPUT APPARATUS FOR MULTIMEDIA INFORMATIONS, AND RECORDING MEDIUM INCLUDING INTERACTIVE INPUT PROGRAMS OF THE MULTIMEDIA INFORMATIONS

A method for preparing and registering homepages within a system that connects a plurality of user terminals with a server equipped by a service provider comprising the steps at said user terminals: editing and preparing homepages; transmitting the prepared homepage data to above server; and outputting on paper information including said information, after information concerning addresses transmitted from said server is received;

and comprising the steps at said server: receiving said homepage data from said user terminals; storing said homepage data in a recording apparatus; determining information concerning the addresses of the corresponding homepages; and returning said determined information to said user terminals, which have transmitted beforehand said homepage data.
