CLAIMS

1. A salt-based antifungal powder platform formulation comprising a sodium salt and L-leucine as excipients to be formulated alongside an antifungal agent to obtain a salt-based antifungal powder formulation, wherein the sodium salt is at a concentration of 5% w/w or less and the L-leucine is at a concentration of 30% w/w.

2. The salt-based antifungal powder platform formulation according to claim 1, wherein the sodium salt is selected from the group consisting of sodium sulfate, sodium acetate, sodium bicarbonate, sodium butyrate, sodium chloride and sodium metabisulfite.

3. The salt-based antifungal powder platform formulation according to claim 2, wherein the sodium salt is sodium sulfate.

4. The salt-based antifungal powder platform formulation according to any one of claims 1 to 3, wherein the antifungal agent is selected from the group consisting of Fluconazole, Itraconazole and Voriconazole.

5. The salt-based antifungal powder platform formulation according to claim 4, wherein the antifungal agent is Fluconazole.

6. The salt-based antifungal powder platform formulation according to claim 4, wherein the antifungal agent is Itraconazole.

7. The salt-based antifungal powder platform formulation according to claim 4, wherein the antifungal agent is Voriconazole.

8. A salt-based antifungal powder formulation comprising a sodium salt at a concentration of 5% w/w or less, L-leucine at a concentration of 30% w/w and an active agent, wherein the active agent is an antifungal agent.

9. The salt-based antifungal powder formulation according to claim 8, wherein the sodium salt is selected from the group consisting of sodium sulfate, sodium acetate, sodium bicarbonate, sodium butyrate, sodium chloride and sodium metabisulfite.

10. The salt-based antifungal powder formulation according to claim 9, wherein the sodium salt is sodium sulfate.

11. The salt-based antifungal powder formulation according to any one of claims 8 to 10, wherein the antifungal agent is selected from the group consisting of Fluconazole, Itraconazole and Voriconazole.

12. The salt-based antifungal powder formulation according to claim 11, wherein the antifungal agent is Fluconazole.

13. The salt-based antifungal powder formulation according to claim 11, wherein the antifungal agent is Itraconazole.

14. The salt-based antifungal powder formulation according to claim 11, wherein the antifungal agent is Voriconazole.

15. A delivery system comprising an inhaler and a salt-based antifungal powder formulation according to claim 8.
