(54) Title: REFILLABLE, FLEXIBLE DISPENSER FOR STACKED MOIST WIPES

FIG. 1

(57) Abstract: A refillable dispenser for pre-moistened wipes includes a flexible pouch. The pouch has a front wall, a back wall, and an interior space therebetween. A dispensing opening is formed in the front wall, and a movable cover can cover the dispensing opening. The dispenser includes a seam that can be opened to an open position and resealed to a closed position to connect the front wall to the back wall. The open position defines a refill opening. The front wall and the back wall are each formed from a flexible material having a bending resistance of between 21.0 milligrams of force and about 300 milligrams of force. In particular embodiments, the flexible material has a thickness of at least 5.0 mils.
