ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.*

(54) Title: LUBRICANT BASED ON A WATER IN OIL EMULSION WITH A SUSPENDED SOLID BASE

(57) Abstract: A lubricant in the form of a water or oil insoluble solvent in oil emulsion is described where a base (soluble or dispersible in said oil-insoluble solvent or water) is present in the dispersed phase. These lubricants are beneficial in various applica-
tions such as internal combustion engines where the oil needs enough basicity to neutralize any inorganic acids generated by sulfur
present in the fuel.
