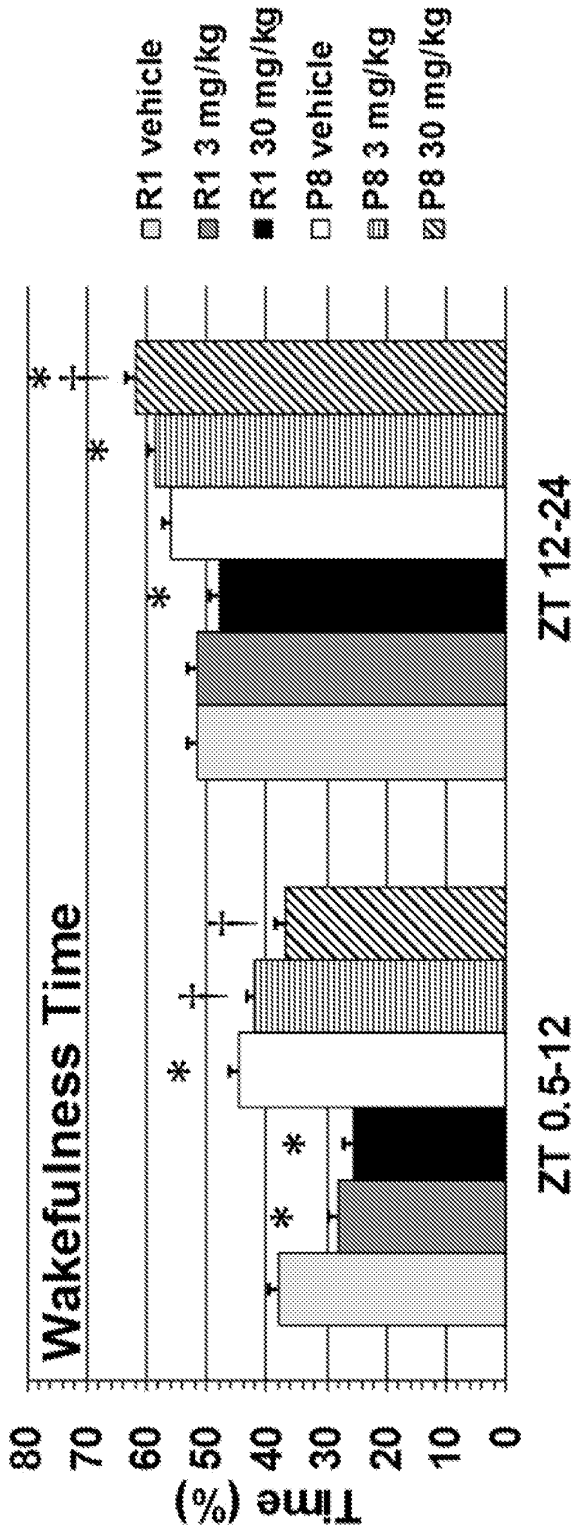

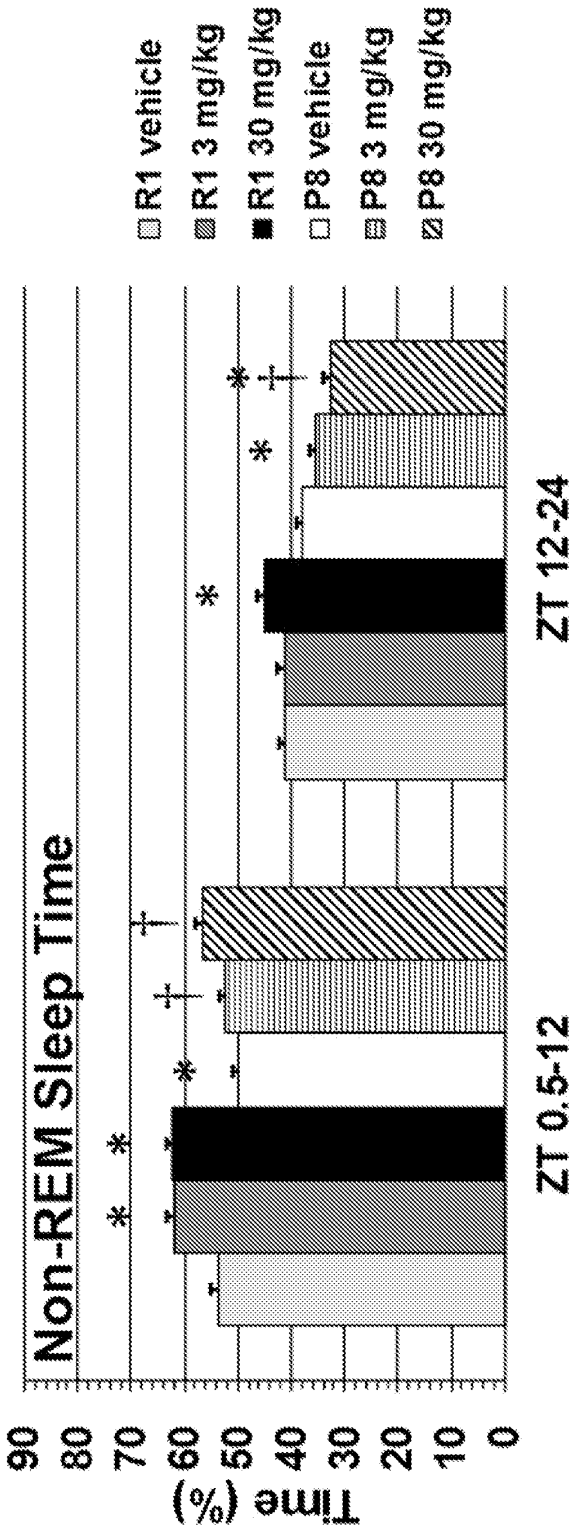

FIG. 1A

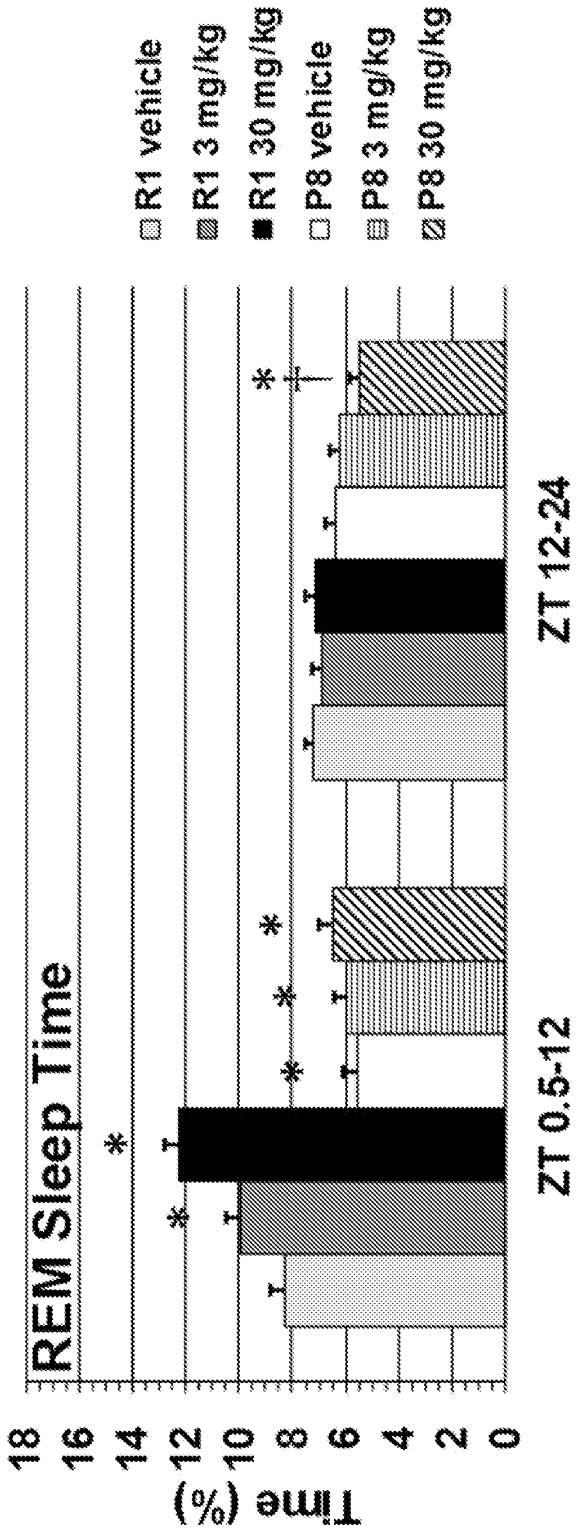

Data represent least square means and standard errors
*: significant difference compared to R1 vehicle cohort (P<0.05, linear mixed model with Kenward-Roger)
†: significant difference compared to P8 vehicle cohort (P<0.05, linear mixed model with Kenward-Roger)

FIG. 1B

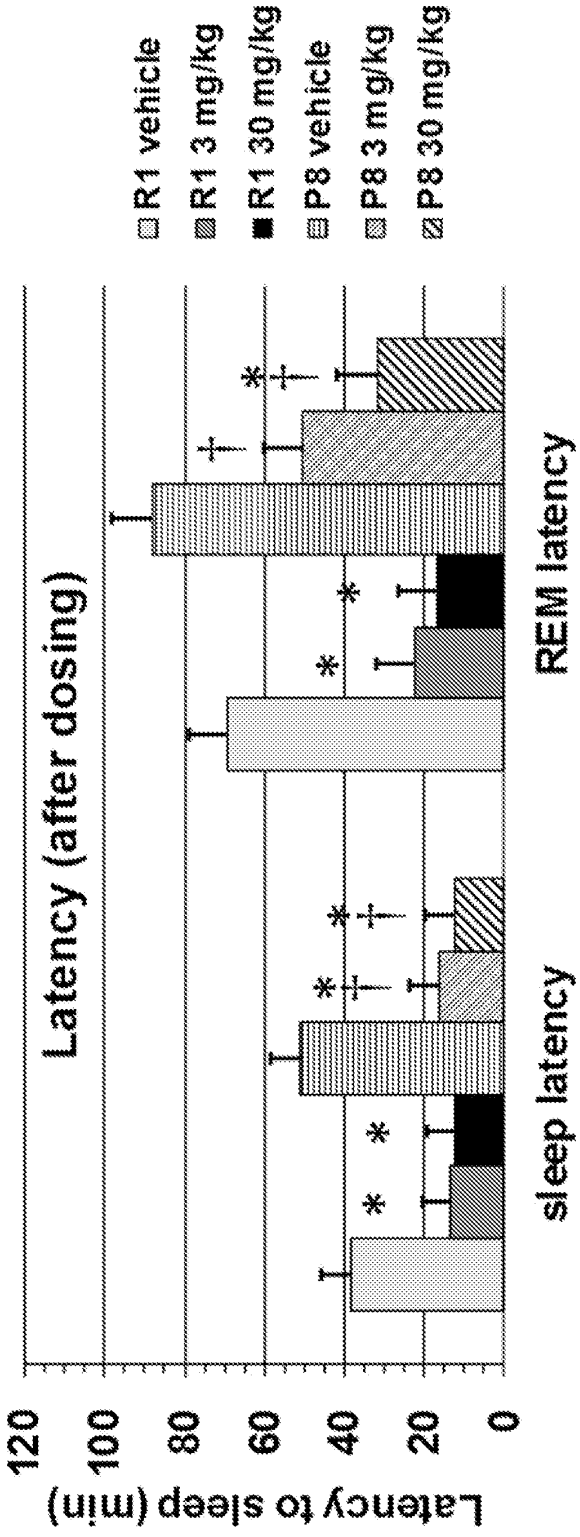

Data represent least square means and standard errors
*: significant difference compared to R1 vehicle cohort (P<0.05, linear mixed model with Kenward-Roger)
†: significant difference compared to P8 vehicle cohort (P<0.05, linear mixed model with Kenward-Roger)

FIG. 1C

Data represent least square means and standard errors
*: significant difference compared to R1 vehicle cohort (P<0.05, linear mixed model with Kenward-Roger)
†: significant difference compared to P8 vehicle cohort (P<0.05, linear mixed model with Kenward-Roger)

FIG. 2

Data represent least square means and standard errors
*: significant difference compared to R1 vehicle cohort (P<0.05, linear mixed model with Kenward-Roger)
†: significant difference compared to P8 vehicle cohort (P<0.05, linear mixed model with Kenward-Roger)
