(54) Title: VISUALIZATION TOOLS FOR DIGITAL PCR DATA

FIG. 4

(57) Abstract: A method for generating
a data visualization is provided. The
method includes displaying a representa-
tion of a portion of detected data from a
substrate to a user. The method further
includes generating a data quality value
for the portion of detected data and dis-
playing, along with the representation of
the portion of detected data, an indica-
tion of data quality value for the portion
of detected data. The method further in-
cludes selecting, by the user, a quality
value threshold, and displaying an adjus-
ted indication of data quality value for
the portion of detected data meeting the
quality value threshold.

**Published:****(88) Date of publication of the international search report:**

7 August 2014

- *with international search report (Art. 21(3))*
- *before the expiration of the time limit for amending the claims and to be republished in the event of receipt of amendments (Rule 48.2(h))*
