ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: METHOD AND COMPOSITION FOR CREATION OF CONVERSION SURFACE

(57) Abstract: The present invention relates generally to the field of metal conversion surfaces, in particular, the creation of a phos-
phate-metal chemisorbed layer for iron and aluminum parts as well as to other metal substrates capable of forming a conversion
surface. A phosphorus-containing solution is brought into contact with the metal components such that a conversion surface is
formed.
