(54) **Title:** A METHOD OF PROCESSING DATA FROM A CCD AND CCD IMAGING APPARATUS

(57) **Abstract:** A method of processing data from a CCD 1 having a line of light sensitive CCD elements is provided. The method comprises the steps of receiving measured illumination data readout from the CCD corresponding to measurements of charge associated with each element of the line of light sensitive CCD elements and removing from the measured illumination data in respect of each CCD element a component dependent upon illumination recorded by each of the other CCD elements through which the charge from the CCD element passed during the readout process.
