APPLICATION OF

USE OF 18-METHYL-15ß,16ß-METHYLENE-19-NOR-20-SPIROX-4-EN-3-ONES

IN THE TREATMENT OF MENORRHAGIA, AND INTRAUTERINE SYSTEMS COMPRISING

18-METHYL-15ß,16ß-METHYLENE-19-NOR-20-SPIROX-4-EN-3-ONES

FOR THE TREATMENT OF UTERINE BLEEDING DISORDERS

ABSTRACT

The present invention describes the intrauterine application of 18-methyl-15ß, 16ß-methylene-19-nor-20-spirox-4-en-3-one systems of the general formula (1), where R^6 and R7 denote hydrogen or a methylene group, for the treatment of menorrhagia, generally uterine bleeding, as well as an intrauterine system for the stated application containing a compound of formula (1).
