- (54) **Title:** FLOATING ASSEMBLY FOR GENERATING SOLAR POWER AND METHOD FOR INSTALLING IT

**Fig. 1**

(57) **Abstract:** A floating assembly for generating solar power, comprising at least one floating element and with one or more solar panels resting on top of each element and with mooring lines extending between each element and a fixed mooring arrangement. The mooring arrangement comprises at least one assembly of two buoys which are intended to be anchored by means of anchor lines. At least one string line is provided extending between the two buoys. The at least one string line is located below the water surface and the mooring lines of each element extend between said element and the at least one string line.
