(54) Title: USE OF AN ANTAGONIST OF PPAR-ALPHA AND PPAR-GAMMA FOR THE TREATMENT OF SYNDROM X

(57) Abstract

A method for the treatment and/or prophylaxis of Syndrome X in a human or non-human mammal, which method comprises the administration of an effective, non-toxic and pharmaceutically effective amount of an agonist of PPARα and PPARγ, or a pharmaceutically acceptable derivative thereof, to a human or non-human mammal in need of such treatment, and certain compound for use in such method.
