(54) Title: SUBSTANTIALLY RIGID COLLAPSIBLE CONTAINER WITH FOLD PATTERN

FIG. 6

(57) Abstract: The present disclosure relates to a blow-molded, rigid collapsible container that can be suitable for storage and dispensing systems of practically any size. The rigid collapsible container may be a stand-alone container. The container may be blow-molded as a unitary piece that may include folds or pre-folds that allows the container to collapse into a relatively flat position. In an expanded state, the container may have a generally trapezoidal prism shape.
