(54) Title: DEVICE, SYSTEM AND METHOD FOR CONTROLLING AN OPERATION

(57) Abstract: A device (10) for controlling an operation,
the device comprising: a controller (12); a storage means
(14) for storing electronic program instructions for con-
trolling the controller; and an input means (16); wherein
the controller is operable, under control of the electronic pro-
gram instructions, to: receive at least one instruction via the
input means, the at least one instruction comprising a com-
mand associated with the operation; and implement the oper-
ation according to the command.
