

TOP PLATE PACKING FOR DROP-IN COOKING STOVE

ABSTRACT

Provided is a top plate packing for a drop-in cooking stove capable of assuring
5 ventilation to an inner side of a main body without deteriorating an outer appearance of the
top plate. The top plate packing (12) disposed between the top plate (5) and a counter top
(1) of a system kitchen includes a metal core member (18) and a rubber seal member (17)
disposed on an outer surface of the core member. An air vent (16) is disposed in the top
plate packing (12) between the top plate (5) and the counter top (1) for ventilation.
