(54) Title: FREELY MOVABLE FLOOR-BOUND ROBOTIC RESCUE VEHICLE AND RESCUE SYSTEM WITH SUCH A RO-
BOTIC RESCUE VEHICLE

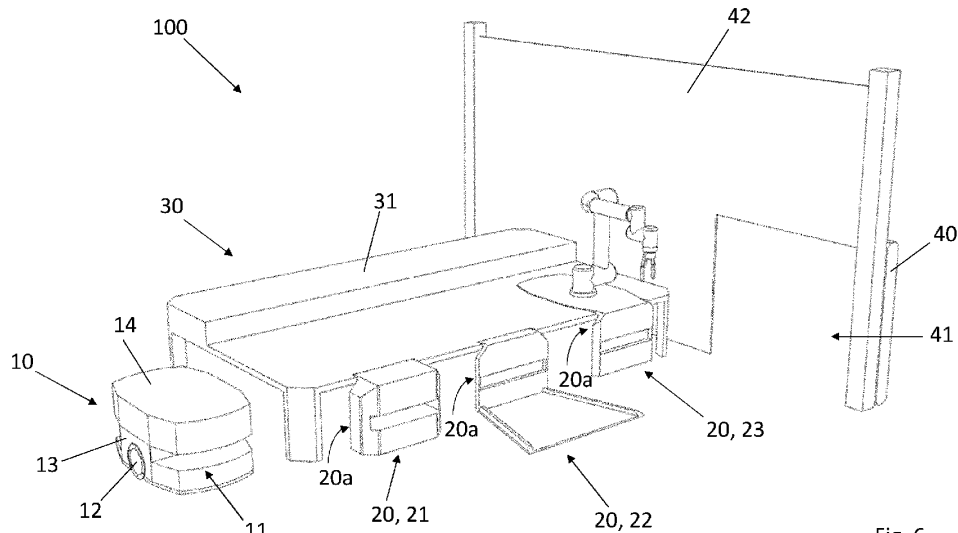

Fig. 6

(57) Abstract: The present invention relates to a freely movable floor-bound robotic rescue vehicle (10) for rescuing an intralogistics vehicle (50) and/or a transport item (60). In order to improve such a freely movable floor-bound robotic rescue vehicle (10) it is suggested, that the robotic rescue vehicle (10) has a first connection interface (11) configured to establish a form-fitting and/or force-fitting connection with a tool module (20). In addition, the invention relates to a rescue system (100) with such a robotic rescue vehicle (10) and a method for rescuing an intralogistics vehicle (50) and/or a transport item (60).
