(54) Title: PEER TO PEER TRANSACTIONS USING NEAR FIELD COMMUNICATION

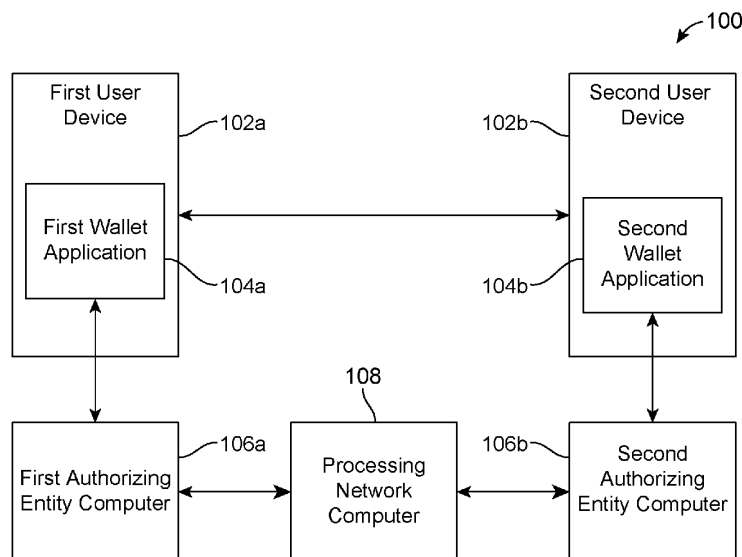

FIG. 1

(57) Abstract: Techniques comprising receiving, at a first contactless communication device after a near field communication (NFC) with a second contactless communication device in an NFC range an input for a funds transfer. The techniques further comprising launching, on the first contactless communication device, one or more of a digital wallet or a digital tag library including one or more account identifiers. The techniques further comprising receiving, at the first contactless communication device, a selection of a first account identifier to be used in the funds transfer. The techniques further comprising receiving, at the first contactless communication device and via the NFC, a second account identifier associated with the second contactless communication device. The techniques further comprising displaying, by the first contactless communication device, a notification indicating a status of the funds transfer.
