ABSTRACT

METHOD FOR PRODUCTION OF ACRYLIC ACID

5 A method for the production of acrylic acid
comprises (i) a step for introducing a polymerization
inhibitor to a stage other than a stage for supplying a
raw material and a stage for supplying a reflux of said
distilling column or (ii) a step for supplying the
10 acrylic acid recovered by thermally decomposing said
oligomer to said stage for dehydration. Thus, the
present invention enjoys effective utilization of
acrylic acid and exalts the efficiency of production.
