

Layer 1 (identification layer), dimensions $a \times b \times c$

Fig.1a

Layer 3, dimensions $g \times h \times i$

Layer 2, dimensions $d \times e \times f$

Track 4 formed from at least one edge of layer 1 such that the track exposes the thinnest dimension of the identification layer

Reading element that is adapted to read the track/identification features contained in identification layer 1.

The relative direction of travel of the reading element is along the length of the track.
