(54) Title: IMPROVED CELL CULTURE DEVICE

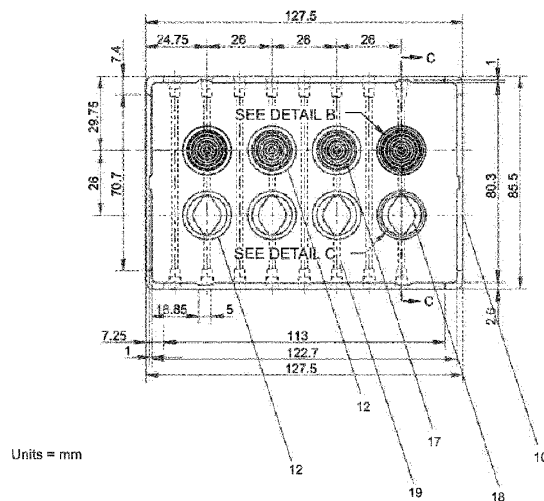

FIGURE 4

(57) Abstract: There is described a method of reducing or preventing the agglomeration of spheroids comprising the use of a cell culture device comprising: a cell culture chamber comprising a base and side walls extending from the base to enclose a volume of the cell culture chamber; an inlet in the base or side walls of the cell culture chamber adapted for fluid communication into the chamber; and an outlet in the base or side walls of the cell culture chamber adapted for fluid communication out of the chamber; wherein the base of the cell culture chamber comprises a discontinuous surface adapted to reduce or prevent the agglomeration of spheroids.
