INFORMATION INPUT METHOD, DEVICE, TERMINAL AND STORAGE MEDIUM

ABSTRACT

Disclosed is ~~The present disclosure provides~~ a method, an apparatus, a terminal and a storage medium for inputting information, belongs to telecommunications field. The method for inputting information includes: monitoring a state of an inputting box, wherein the state includes an active state or a sleep state; if it is detected that the inputting box is in the active state, calling a virtual keyboard; and inputting information in the inputting box using predefined keys of the virtual keyboard. The apparatus includes a monitoring module, a calling module and an inputting module. The terminal includes a processor, a memory and program modules. The storage medium stores the program modules. The technical solution~~present disclosure~~ increases security level of user information.
