(54) Title: REINFORCED RESEALABLE INNER PACKAGE FOR CONTAINER

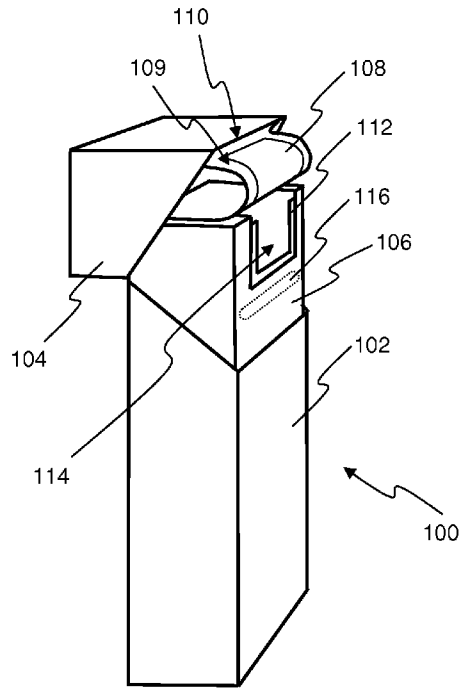

Figure 1

(57) Abstract: The present invention relates to a container (100) for consumer goods. The container (100) comprises an outer housing, comprising a box (102) and a lid (104). The container also comprises an inner package (106) of consumer goods within the outer housing having an access opening through which consumer goods can be removed, an inner frame (112) within the inner package, and an adhesive label (108) covering the access opening of the inner package and extending beyond the periphery of the access opening of the inner package, the adhesive label (108) being at least partially releasably affixed to the outer surface of the inner package (106) by a releasable adhesive. At least one portion of the inner surface of the inner package (106) is permanently affixed, using affixing means, to a corresponding portion of the outer surface of the inner frame (112).
