(54) Title: SORPTION COOLING DEVICES AND TEMPERATURE-CONTROLLED SHIPPING CONTAINERS INCORPORATING SORPTION COOLING DEVICES

(57) Abstract: Novel sorption cooling devices capable of providing cooling over an extended period of time are disclosed. The sorption cooling devices (2008, 2022, 2020) are particularly useful for temperature-controlled shipping containers (2000) that are required to maintain a temperature below ambient for a time sufficient to complete delivery of the container and its contents. The shipping containers can be utilized to cost-effectively transport temperature-sensitive products.
