(54) **Title:** MULTI-PURPOSE SPORTS APPARATUS

(57) **Abstract:** The subject of the utility model is a multi-purpose sports apparatus particularly for improving footballers' technical skills, comprising a foundation body (10) containing a playing surface (11) and an obstacle element (20). The distinctive feature of the method is that the playing surface (11) of the foundation body (10) looking from the interior of the foundation body (10) has an at least partially convex top surface (15) and the foundation body (10) has a support structure (30) which separates the playing surface (11) from the base (2).
